

# VIVEK VISHWAKARMA

Software Developer

## PROJECTS

### Weather Website

- The website fetches real-time weather data using a weather API to provide accurate forecasts.
- A simple and responsive UI displays temperature, humidity, wind speed, and other weather details.

### ISTE Ideation Project – Smart AR Interior Design App (3<sup>rd</sup> prize)

- A smart interior design solution leveraging AR for real-world room scanning and layout accuracy.
- Features AI-driven suggestions for furniture, color palettes, and lighting to enhance space usability and aesthetics.
- Offers a virtual marketplace with 100+ decor items and a built-in budget planner for real-time cost estimation.

### Tech Fest (Prarambh) Website

- Designed and developed the website for Prarambh 2K25, the 19th ISTE Gujarat State Annual Students Convention, hosted by SAL Education.
- Implemented a responsive, user-friendly interface to showcase event details, schedules, registration processes, and organizational information.
- [Prarambh - Tech Fest 2025 | ISTE & SAL Education](#)
